Tips for using this guide

The table of contents above is hyperlinked to make it easy for you to navigate in this document. Click a section title to move directly to that location.

This guide covers the two possible registration scenarios: activating an account that has been migrated to VSS and registering a new account in VSS. These scenarios are color-coded. Check the colors at the side of the step-by-step table to make sure you are following the right one.

All additional documents noted in this guide are italicized. The documents are hyperlinked; however, if you are viewing a printed copy of this guide, you can access VSS documents from the **How to Use VSS** or **Help** links on the VSS home page. Once you open the VSS help, click the **Training and Reference Guides** topic for a list of documents.

BEFORE YOU BEGIN

STAARS Vendor Self Service (VSS) allows you, as a vendor, to manage your own account information, track payments, access bids and proposals, and perform other financial transactions from one location.

This guide provides help for the steps to set up your company (or individual) VSS account. Depending on your status as a vendor to the State of Alabama, you will either have to (1) activate an existing account OR (2) register for a new account. This guide will help you determine which steps you need to follow.

PLEASE ALLOW 30-40 MINUTES TO COMPLETE YOUR ACCOUNT SETUP. You may save your entries and resume later, as long as you save your username and password to log in again later.

Before you begin, have the following information on hand:

- ☐ Legal (1099) information for each company location (the first one entered will be the Headquarters)
- ☐ Tax ID Number (this is your SSN if you register as an individual)
- ☐ Legal Business Name
- ☐ Contact Information (name, address, email, phone and fax) for the following:
 - Account Administrator
 - Ordering
 - Payment
- ☐ If you want notifications of solicitations, list your products and services. For a list of available codes, see *Products and Services Commodity Codes* and *Professional Services Products and Services Codes*.

Legal Name, Legal (1099) Address, 1099 TIN Supporting Documentation

If you register for a new account or update Legal Name, Legal (1099) Address, or 1099 TIN information on an existing account, you will be required to submit **one** of the following supporting documents:

- ☐ Letter on your company letterhead showing Legal Name, 1099 TIN, and Legal (1099) Address
- OR**
- ☐ Documentation confirming Legal Name, 1099 TIN, and Legal (1099) Address such as IRS Form 147c

EFT Supporting Documentation

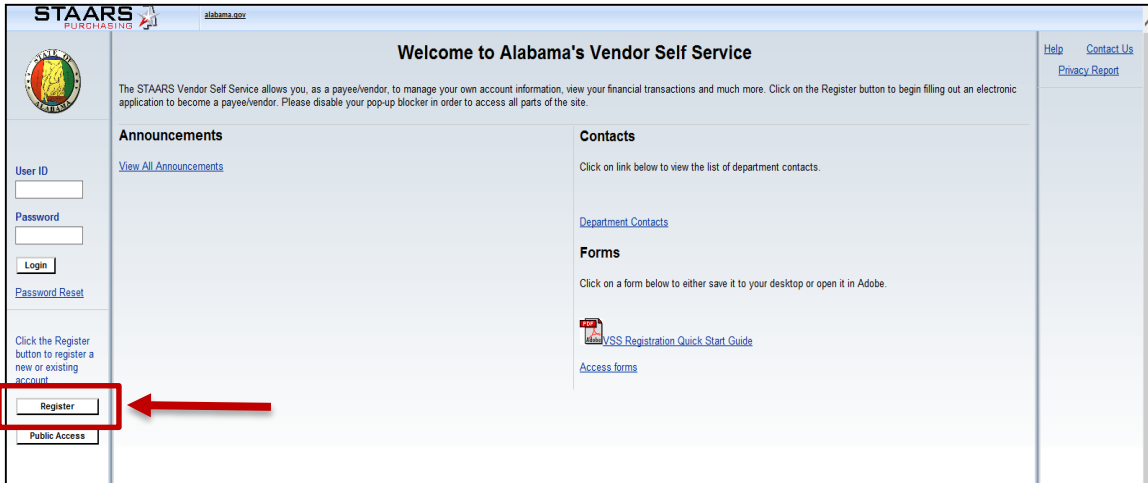

To sign up for electronic funds transfer (EFT), you need the name of your banking institution, its ABA (routing) number, and your account number. You are also required to submit one of the following documents:

- ☐ A voided check for the bank account with your organization's name pre-printed on it.
- OR**
- ☐ A letter (on letterhead) from your financial institution verifying the bank account ownership. The letter must include the vendor name, account number, and bank routing (ABA) number.
- OR**
- ☐ An account statement for the bank account indicated on the application.

Section: Additional Business Information

- 16** The next section is **Additional Business Information**, where you register for commodity notifications. STAARS notifies vendors by email about any bids using their registered commodities. You can add or remove commodities as your business changes.

Click **Add** to register commodities; click **OK** to continue.

- 17** Searching for Commodities requires some understanding of the Commodity Code. The first 3 digits of a code describe a Class of goods or services, while the full 5-digit code provides a more detailed description. If you search with ***00** in the **Commodity/Service Code** field and a keyword (with wildcards before and after) in the **Commodity Description**, you can limit your results to the higher-level Class in order to find specific items in that class.
